World Class Piano

FEATURING INTERNATIONAL RECORDING
ARTIST AND FILM SCORE COMPOSER

CALVIN JONES

TUESDAY, APRIL 16TH

PRE-SHOW DINING BEGINS AT 5:00PM | CONCERT TO FOLLOW AT 7:00PM

Originally from central South Dakota and now performing worldwide, Grand Living is thrilled to welcome Calvin Jones for a breathtaking performance where he will perform a mix of solo piano tracks and music from his symphony, *Paramount*.

In the words of one critic, "If brilliant piano performance could be likened to a painting, Calvin Jones routinely executes a 'musical Mona Lisa.'" Calvin's music incorporates classical and popular themes and his performances seem to strip away the action of the piano, caressing the strings.

Calvin has been blessed to be part of some amazing projects. In 2011 Teresa Scanlan (Miss Nebraska) took the Miss America 2011 crown performing Calvin's hit "Whitewater Chopped Sticks" for some 14 million viewers on ABC TV. He was asked to write the soundtrack for the second highest grossing documentary film of all time (grossing \$33 million at the box office) produced by Gerald Molen (*Schindler's List*, *Jurassic Park*). Calvin is currently living another dream - performing his compositions from his new release *Paramount: The Symphony Sessions* with orchestras worldwide. Recently recorded with the Taurida International Symphony Orchestra of St. Petersburg, Russia, *Paramount* represents the soulful new classic music that is loved by all.
